# THE NEXT GENERATION OF HANDHELD CRITICAL CARE ANALYSERS

**epoc**  
BLOOD ANALYSIS

The epoc, developed by the founder of the i-STAT analyser, is the first wireless point of care testing solution to use Smart Card technology. The epoc provides immediate blood gas, electrolyte and critical care biochemistry results directly to a hand held pda (included) and wirelessly interfaces to an electronic data manager (EDM) and bluetooth printer. It is a completely affordable analyser that is easy to use and requires no refrigeration of consumables.

Contact us for a demonstration and discuss our ***not to be missed trade-in offer*** for your i-STAT® System\*

\*i-STAT® is a registered trade mark of Abbott Point of Care Inc
